TEMPLE WORSHIP

Look to the temple(s) for the action. Bold graphics, fun graffiti patterns and explosive mixes of fluorescent colors in intense, mouthwatering tones—are splashed across temples. Sumptuous stone clusters, gold and silver leafing, and delicate filigree detailing embellish many styles. Intricate open work, subtly, but exquisitely sculpted temples, sweeping lines, and striking bends and twists lend architectural appeal. These are temple designs truly worthy of worship.

1. FLUORESCENT SUNGLASS COLLECTION, using HDA Technology, from Okia 2. JUDITH LIBER Arabesque Group 1638 & 163750 from Legacie/The Luxury House of B. Robinson Optical 3.
