**changez de look avec les lunettes Slide by Okia**

## SLIDE TO CHIC

***Okia is proud to announce the launching of a Patented Slide Friendly System Technology to switch a variety of temple patterns within a single frame***

Okia, one of Hong Kong's leading eyewear innovation Companies, is introducing a new eyewear collection that enables you to mix and match a variety of temple patterns within a single frame to suit your mood and personality.

The patented *Slide Friendly System Technology* allows ultra-quick conversion from formal eyewear style to casual eyewear style and back.

Interchanged temple is using patented HD acetate, the concept and technology produced by OKIA which will bring a new world of colour and pattern possibilities for fashion and lifestyle products. Interchanged temple will provide a wide range of patterns for the temple to match with different function and enhance the flexibility of an eyewear.

Three collections - Men, Women and Teenagers – have been created to fulfil everyone expectation to be unique and different every day.

Make you life distinctive: change your eyes everyday!
